## **VIRAL OUTBREAK PREVENTION PLAN**

Following on from the NSW Health directives of, October 2022, the following adjustment an update to our VOPP has been implemented.

The following corrective action to manage any “VIRAL OUTBREAK” in the future will be implemented.

Please refer to NSW Health directives and the Authorities controlling these announcements via [www.nsw.gov.au](http://www.nsw.gov.au), in all instances.

Our company has in place and subscribes to a safe working environment for all staff, visitors and operators working for us and entering our site.

- 1) Masks need only be worn in the event of a future crisis,
- 2) Temperatures will be taken at the commencement of each working day in the event of a future crisis,
- 3) a. If a high temperature is registered, the employee will be required to take a Rapid Antigen Test (RAT) and wait for a result,  
b. If NEGATIVE, the employee can continue with their allotted duties,
- 4) If RAT indicates a POSITIVE result, the employee shall be required implement “point 1)” immediately,
- 5) If an employee is feeling unwell, with flu like symptoms, once arriving for work then the procedure from 4) above will be put into place.

We supply ample free bottles of hand sanitizer and there are sanitization stations at office entrances. Antibacterial wipes are also available free for any employee, contractor, or visitor.

ALL vehicles are equipped with bottles of hand sanitizer, spray, wipes, and disposable face masks.

All office surfaces are sanitized daily.

**ANY employee refusing to follow these rules are asked to leave the premises immediately, without pay**
